Policy Statement

This policy delineates the standard procedures and policies regarding Orange Campus.

Reason for the Policy

The purpose of this policy is to outline the overall current operation and permitted uses of the Orange Campus as well as the available support services. In addition, this protocol addresses the policies and procedures to be followed for the use of the Orange Campus. This protocol is based on the current state of renovation of the facility as well as zoning and other regulatory requirements related to the renovation plan application.

3036.1 General

The Orange Campus located at 584 Milford Derby Road, Orange CT opened for use by the University of New Haven in January 2014. The facility is currently permitted through local and state authorities for evening graduate school classes and programs (270 students and staff). Daytime full time occupancy was also permitted on a limited basis (40-60).

The campus was established as a “satellite campus” of the University of New Haven. As a “satellite” campus it was designed to draw many of the support services from the main campus including but not limited to:

- Events Planning and Management
- Information Systems
- Facility Services
- Food Service
- Safety, Security
- Transportation
- Mail Service

It is important to recognize while such services are supported from the main campus, these services are also limited.

- B. While the entire Orange Facility is approximately 70,000 square feet of space, it is important to recognize that the use of the facility is limited to the first floor only (~45,000 square feet). The usable area was renovated to support classrooms in the main and north buildings as well as the food service in the south building.
- C. The main level, while usable is limited to “office use” only. The cafeteria, classrooms, and the Atrium are the only locations rated for “assembly,” meaning events of large groups may only be hosted at this time in these spaces. Their use is further subjected to the limits established by building code. See Addendum 1 –Orange Occupancy/Facilities Set-up Limits
- D. The lower level of the south building is not available for use at this time and has been isolated pending a future renovation.

- E. Further, while the Orange Campus has been permitted for full build-out occupancy of 440 occupants. Campus use is limited by the amount of available parking. Currently there are 200 installed parking spaces and parking is restricted from non-designated areas (e.g. along the access road, grass areas, etc.). For occupancy uses greater than the parking will accommodate, the use of carpooling, buses or shuttles may be employed.

3036.2 Regulatory Permissions

The following is a summary of the uses of the campus as permitted through the various jurisdictional agencies including but not limited to state and local building, fire, zoning, health and environmental agencies.
